RULES AND REGULATIONS

ARTICLE I

ADMINISTRATIVE AND GENERAL PROVISIONS

.01 Commission's Rules and Regulations.

All services rendered by the Utility shall be in accordance with the Kentucky Public Service Commission and the acts, rules, regulations and forms which have been adopted by the Public Service Commission and all amendments thereto and modifications thereof which may be made by the Commission.

.02 Company's Rules and Regulations.

In addition to the rules and regulations prescribed by the Commission, all electric service rendered shall be in accordance with the following rules and regulations adopted by the Utility, provided the same do not conflict with those of the Public Service Commission.

.03 Filing of Rates, Rules and Regulations.

A copy of all schedules of rates, rules and regulations under which electrical service is rendered is on file for the public's benefit and review with the Public Service Commission and in the various offices of the Utility at Berea College Administration Building and in the office of the Business Vice President.

.04 Application for Service.

All applications for service shall be made on the Berea College Electric Utility Department's standard application or contract form, which shall be signed by ~~the customer, or his~~

### RULES AND REGULATIONS

The security deposit may be refunded to an active residential customer who has a perfect payment record for the previous twelve month period. A perfect payment record shall be defined as a customer who has not been delinquent with payment during the most recent twelve month period. If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10% for a non-residential customer, the Utility may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

In Determining whether a deposit will be required or waived, the following criteria will be considered:

- (a) Previous payment history with the Utility. If the customer has no previous history with the Utility, statements from other utilities, banks, ect. may be presented by the customer as evidence of good credit.
- (b) Whether the customer has an established income or line of credit.
- (c) Length of time the customer has resided or been located in the area.
- (d) Whether the customer owns property in the area.
- (e) Whether the customer has filed bankruptcy proceedings within the last seven years.

### RULES AND REGULATIONS

#### .05 Security Deposits

The Utility may require from all customers or applicants, as a guaranty or surety, a cash deposit. The deposit amount will be equal to two-twelfths (2/12ths) of the estimated annual bill of such customer or applicant. Deposits will not be required for customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Reconnection. Service may be refused or discontinued for failure to pay the requested deposit. The required deposit may be waived upon a customer's showing of satisfactory credit or payment history. A customer's deposit, less any unpaid amounts for services rendered, shall be returned upon the discontinuance of service.

Where the monthly bills are in excess of the deposit, or where the customer has delinquent bill(s), the Utility may require the deposit to be increased; but such deposit shall not exceed the amount of two-twelfths (2/12ths) of the maximum estimated annual consumption of such customer or applicant. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required.

Interest, as prescribed by KRS 278.460 will be paid on deposits. Interest will be calculated on October 31 for all customers with deposits on file. The interest will be applied as a credit to the customer's bill that is rendered during November. Upon request for customer's discontinuance of service, interest will be calculated for the time period since the previous October 31 or from the date on the original security deposit receipt depending on which date is the most recent.

No deposit shall be required of any receiver or trustee operating a business requiring utility service under an order of any court.

### RULES AND REGULATIONS

#### .06 Resell of Service

Except in the cases where the customer has a special contract with the Utility, no customer shall resale any service purchased from the Utility.

#### .07 Uniform Service

The Utility will endeavor to supply service continuously and without interruption; however, the Utility shall not be responsible in damages or otherwise for any interruption in the supply when such failure is without willful fault or neglect on its part.

#### .08 Monthly Bills

Bills for service will be rendered monthly on the billing from attached hereto as Article I, Exhibit A unless otherwise specified. The term "month" for billing purposes shall mean the period between any two consecutive readings of the meter by the Utility, such readings to be taken as near as practicable every thirty (30) days.

Bills are due and payable within a period not exceeding ten (10) days. Failure to receive a bill does not exempt a customer from these rules and regulations.

When the Utility is unable to read a meter after a reasonable effort or where the meter fails to operate, the customer will be billed on an estimated basis at the average of the three immediate preceding months, or similar months of utilization and the billing adjusted as necessary when the meter is read.

customer will be billed on an estimated basis at the average of the three immediate preceding months, or similar months of utilization and the billing adjusted as necessary when the meter is read.

#### .09 Termination of Service for Non-Payment

Service shall be subject to discontinuance to any customer for nonpayment of bills, including delayed charges. The Utility shall give the customer at least ten (10) days written notice, but the cut-off date shall not be effected before twenty-seven (27) days after the mailing date of the original bill. If prior to discontinuance of service, there is delivered to the Utility's office or to its employee empowered to discontinue service, payment of the amount in arrears, including delayed charges, then discontinuance of service shall not be made, or where a written certificate is filed, signed by a physician, registered nurse or public health officer stating that, in the opinion of the person making the certification, discontinuance of service will aggravate an existing illness or infirmity on the affected premises. In such latter event, service shall not be discontinued for thirty (30) days beyond the termination date stated on the customer's written notice for discontinuance of service. Any written notice for discontinuance of service shall advise the customer of his rights, the reason for such discontinuance and the existence of local, state, and federal programs that provide financial assistance on utility bills.

### RULES AND REGULATIONS

#### .10 Fraudulent or Illegal Use of Service

When the Utility has discovered evidence that by fraudulent or illegal means a customer has obtained unauthorized service or has diverted the service for an unauthorized use, or has obtained service without same being properly measured, the service to the customer may be discontinued upon forty-eight (48) hours written notice. The Utility shall not be required to restore the service until the customer has complied with all of the rules of the Utility and regulations of the Commission and the Utility has been reimbursed for the estimated amount of service rendered and the cost to the Utility incurred by reason of the fraudulent use.

#### .11 Special Charges

- (A) A ten (10%) percent late payment charge will be added if any bill is not paid by the tenth (10th ) day after billing date.
- (B) In the event service is discontinued, an additional \$10.00 reconnection charge will be charged to all customers, except for customers qualifying for service reconnection under 807 KAR 5:006, Section 15, Winter Hardship Reconnection.
- (c) A special charge of \$10.00 may be made for any check returned from any financial institution by reason of insufficient funds or otherwise.

#### .12 Point of Delivery

The point of delivery is the point as designated by the Utility on customer's premises where current is to be delivered to buildings or premises.

## RULES AND REGULATIONS

Any other point of delivery, requested by the customer, other than that designated by the Utility shall be at the additional cost borne by the customer.

### .13 Customer's Wiring Standards.

All customer service connections and customer wiring must conform to the Utility's requirements and accepted modern standards as exemplified by the requirements of the National Electric Safety Code and the National Electric Code, and/or all other applicable standards.

.14 Customer liability.

The customer shall assume all responsibility for the electric service in or on the customer's premises at and from the point of delivery and for all wiring and appliances and equipment used in connection therewith which are not the property of the Utility, and will protect and save the Utility harmless from all claims for injury or damage to persons or property occurring on customer's premises or at or from the point of delivery occasioned by such service and equipment, except where said injury or damage will be shown to have been caused solely by the negligence of the company.

.15 Inspection.

The Utility shall have the right to inspect, but shall not be obligated, for any installation before electricity is introduced or at any later time and reserves the right to reject any wiring or appliances not in accordance with the Utility's standards. Such inspection or failure to inspect or reject shall not render the Utility liable or responsible for any

loss or damage resulting from defects in the installation, wiring, equipment or appliances, or from violation of the Utility's rules, or from accidents which may occur upon the customer's premises. Further, if it is required, it shall be the responsibility of the customer to present to the Utility a certificate of inspection evidencing compliance with all state and local ordinances in effect at the time, before such connections are to be made.

.16 Protection of Company's Property.

All meters, service connections and other equipment furnished by the Utility, shall be and remain the property of the Utility. The customer shall provide a space for and exercise proper care to protect the property of the Utility on its premises and in the event of loss or damage arising from the neglect of customer to care for the same, the cost of necessary repairs or replacement shall be paid by customer.

.17 Right of Access.

The Utility's identified employees shall have access to customers premises at all reasonable times for the purpose of reading meters, testing, repairing, removing or exchanging any and all equipment belonging to Utility.

.18 Failure of Meter to Register.

In the event a customers meter should fail to register, the customer shall be billed from the date of such failure at the average consumption of the customer, based on like months.

RULES AND REGULATIONS

.19 Termination of Contract by Customer.

Customers who have fulfilled their contract terms and wish to discontinue service must give at least three (3) days notice, either written or by telephone. Notice to discontinue service prior to expiration of contract term will not relieve customer from any minimum or guaranteed payment under any contract or rate.

.20 Service Charge for Temporary Service.

Customers requiring electric service for a period not exceeding ninety (90) days will be required by the Utility to pay all costs for connection and disconnection incidental to the supplying and removing of the service, and the Utility may estimate the amount of power to be used and charge for that amount, in advance.

.21 Bill Adjusting.

If the testing of any meter shows that the meter is accurate within 2% slow or fast, no adjustment will be made in the customer's bill. In any cases where the test shows the meter to be in excess of 2% slow or fast, an adjustment will be made in the customer's bill in accordance with the Public Service Commission regulation 807 KAR 5:006E, Section 9.

## RULES AND REGULATIONS

### .22 Energy Emergency Control Program.

Purpose-- To provide a plan for reducing the consumption of electric energy supplied by the Electric Distribution Utility Company (Company) in the event of a severe fuel shortage, such as might result from a general strike in the coal mining or transportation industry.

For the purpose of this program, the following priority levels have been established:

- I. Essential Health and Safety Uses -- as defined in Appendix B
- II. Residential Use
- III. Commercial and Industrial Uses
- IV. Nonessential Uses -- as defined in Appendix C

It is the intent of this Program that the Company's wholesale customers will be treated in a manner consistent with the curtailment procedures applicable to the Company's retail customers. Implementation in the case of wholesale customers will be in accordance with the curtailment provision contained in the service agreement between the parties or the applicable tariff.

Procedures -- In the event of a potential severe fuel shortage, such as one resulting from a general coal strike the following steps will be implemented. These steps will be carried out to the extent not prohibited by contractual commitments or by order of the regulatory authorities having jurisdiction. The "days' operation" referred to below will be furnished by the generation and transmission utility ("The Supplier") which supplies the wholesale power to the company.

PUBLIC SERVICE COMMISSION

- A. To be initiated when the supplier advises that ~~fuel stocks~~ <sup>OF KENTUCKY</sup> are decreased to 50 days' operation of coal-fired generation and a continued downward trend in coal stocks is anticipated:

- 1) Curtail the use of energy in all company offices, plants, etc.

## RULES AND REGULATIONS

- B. To be initiated when the supplier advises that fuel supplies are decreased to 40 days' operation of coal-fired generation and a continued downward trend in coal stocks is anticipated:
- 1) Discontinue all short - term sales to neighboring utilities.
  - 2) Limit emergency deliveries to neighboring utilities to situations where regular customers of such utilities would otherwise be dropped or where the receiving utility agrees to return like quantities of energy within 14 days.
  - 3) Curtail electric energy consumption by customers on interruptible contracts to a maximum number of hours of use per week as negotiated within the context of the contract provisions.
  - 4) Purchase energy from neighboring systems to the extent practicable.
  - 5) Purchase energy from industrial customers with generation facilities to the extent practicable.
  - 6) Through use of the news media and direct customer contact, appeal to all customers, both retail and wholesale, to voluntarily reduce their use of electric energy as much as possible, and in any case endeavor to reduce the nonessential usage of electricity (Priority Level IV) by at least 25%.
  - 7) Utilize voltage reduction as a means of reducing KWH consumption if this is deemed a feasible and viable measure in the Company's service area.
  - 8) The Company shall advise customers of ~~the~~ **PUBLIC SERVICE COMMISSION** mandatory program to be introduced in Section ~~9(1)~~ **OF KENTUCKY** through direct contact and mass media, and establish an effective means of answering specific customer inquiries concerning the impact of the mandatory program on his electricity ~~availability~~ **EFFECTIVE** ~~06/11/80~~.

## RULES AND REGULATIONS

C. To be initiated -- in the order indicated below -- when the supplier advises that fuel supplies are decreased to 30 days' operation of coal-fired plants and continued downward trend in coal stocks is anticipated:

- 1) Discontinue emergency deliveries to neighboring utilities unless the receiving utility agrees to return like quantities of energy within 7 days.
- 2) Implement mandatory curtailment of electric service to all customers as indicated below:
  - (a) Priority Level IV - 100%
  - (b) Priority Level III - 25% (based on the 'monthly base period use' as defined in Appendix D)
  - (c) Priority Level II - 15%
- 3) The Company shall advise all customers of the mandatory program specified in Section "D" below.

D. To be initiated when the supplier advises that fuel supplies are decreased to 20 days' operation of coal-fired generation and continued downward trend to coal stocks is anticipated:

- 1) Implement mandatory curtailment of electric service to all priority levels (including Priority Level I) at a minimum service level which is not greater than that required for protection of human life and safety, protection of physical plant facilities, and employees' security.
- 2) The Company shall advise all customers of the mandatory program specified in Section "E" below.

BEREA COLLEGE ELECTRIC  
UTILITY DEPARTMENT

RULES AND REGULATIONS

E. To be initiated as a measure of last resort when the supplier advises that fuel supplies are decreased to 15 days' operation of coal-fired generation and continued downward trend in coal stocks is anticipated:

- 1) Implement procedures for interruption of selected distribution circuits on a rotational basis, while minimizing -- to the extent practicable -- interruption to Priority Level I.

With regard to mandatory curtailments identified in Section "C", "D", and "E" above, the Company proposes to monitor compliance after the fact, to the extent feasible, as approved by the Commission. A customer exceeding his electric energy allotment would be warned to curtail his usage or face, upon continuing noncompliance and upon one day's written notice, disconnection of electric service for the duration of the energy emergency.

Termination of Energy Emergency -- The Energy Emergency Control Program shall be terminated upon notice to the Commission, when the supplier advises that (a) the fuel stockpile has been increased to at least 20 days supply of normal generating capacity, (b) coal deliveries have been resumed, and (c) there is reasonable assurance that the coal stocks are being restored to adequate levels.

### ESSENTIAL HEALTH AND SAFETY USES

Essential health and safety uses given special consideration in these procedures shall, insofar as the situation permits, include the following types of use and such other uses which the Commission may subsequently identify:

- (a) "Hospitals", which shall be limited to institutions providing medical care to patients.
- (b) "Life Support Equipment", which shall be limited to kidney machines, respirators, and similar equipment used to sustain the life of a person.
- (c) "Police Stations and Government Detention Institutions", which shall be limited to essential uses required for police activities and the operation of facilities used for the detention of persons. These uses shall include essential street, highway and signal-lighting services.
- (d) "Fire Stations", which shall be limited to facilities housing mobile fire-fighting apparatus.
- (e) "Communications Services", which shall be limited to essential uses required for telephone, telegraph, television, radio and newspaper operations.
- (f) "Water and Sewage Services", which shall be limited to essential uses required for the supply of water to a community, flood running and sewage disposal.
- (g) "Transportation and Defense-related Services", which shall be limited to essential uses required for the control and guidance control and navigation of air, rail and mass transit systems, including those uses essential to the national defense and operation of state and local emergency services.

RULES AND REGULATIONS

- (h) "Other Energy Source Services", which shall be limited to essential uses required for the production, transportation, transmission and distribution -- for fuel -- of natural or manufactured gas, coal, oil or gasoline.
- (i) "Perishable Food or Medicine", which shall be limited to refrigeration for the storage and preservation of perishable food or medicine, when that use is substantially all of the customer's load.

Although these types of uses will be given special consideration when implementing the manual load-shedding provisions of this procedure, these customers are encouraged to install emergency generation equipment if continuity of service is essential. In case of customers supplied from two utility sources, only one source will be given special consideration. Also, any other customers who, in their opinion, have critical equipment should install emergency generation equipment.

## RULES AND REGULATIONS

### NONESSENTIAL USES

The following and similar types of uses of electric energy and others which the Commission may subsequently identify shall be considered nonessential for all customers:

- (a) Outdoor flood and advertising lighting, except for the minimum level to protect life and property, and a single illuminated sign identifying commercial facilities when operating after dark.
- (b) General interior lighting levels greater than minimum functional levels.
- (c) Show-window and display lighting.
- (d) Parking-lot lighting above minimum functional levels.
- (e) Energy use greater than that necessary to maintain a temperature of not less than 78 degrees during operation of cooling equipment and not more than 65 degrees during operation of heating equipment.
- (f) Elevator and escalator use in excess of the minimum necessary for no-peak hours of use.
- (g) Energy use greater than that which is the minimum required for lighting, heating or cooling of commercial or industrial facilities for maintenance cleaning or business-related activities during no-business hours.

#### .23 Monitoring of Customer Usage

At least once annually the Utility will monitor the usage of each customer according to the following procedure:

- (a) The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.
- (b) If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.
- (c) If the annual usages differ by twenty-five (25%) percent or more and cannot be attributed to a readily identified common cause, the Utility will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.
- (d) If the cause for the usage deviation cannot be determined from analysis of the customer's meter readings and billing records, the Utility will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, or changes in business volume.
- (e) Where the deviation is not other wise explained, the Utility will test the customer's meter to determine whether it shows an average error greater than two (2%) percent fast or slow.

### ARTICLE II

#### DISTRIBUTION LINES

##### .01 Normal Extension.

- (a) An extension of one thousand (1,000) feet or less shall be made by the Utility from its existing distribution line without charge for a prospective customer who shall apply for and contact to use this service for one year or more and provides guarantee for such service.
- (b) The "Service Drop" to the structure from the distribution line at the last pole shall not be included in the foregoing measurements.

##### .02 Extension to a Proposed Real Estate Subdivision.

- (a) Deposit and Application. An applicant desiring an extension to a proposed Real Estate Subdivision shall be required to place on deposit with the Utility an amount equal to the entire cost of the extension, based on an estimate prepared by the Utility. Said deposit shall be adjusted to the actual cost of the extension at the time the extension has been completed.
- (b) Service Drop. The "Service Drop" shall not be considered a part of the extension.
- (c) Refund. Each year for a period of ten (10) years the Utility shall refund to the applicant a sum equivalent to the average cost of one thousand (1,000) feet of the extension installed for each additional customer connected during the year, whose service is connected to the extension installed and not to extend laterals therefrom, but in no case shall the total amount refunded exceed the amount on deposit with the Utility. After the end of the refund period, no refund shall be made.

- (d) The Utility is responsible for obtaining easements and rights-of-way on property not owned by the developer/owner that are necessary to extend service to the proposed real estate subdivision. The cost of obtaining the easements and rights-of-way shall be included in the total per foot cost of an extension, and shall be apportioned among the Utility and developer/owner in accordance with the applicable extension regulation. The developer/owner is responsible for providing the necessary easements and rights-of-way required by the Utility on the property the developer/owner is proposing to subdivide into a real estate subdivision.

#### .03 Other Extensions

- (a) When an extension of the Utility's line to serve an applicant or group of applicants amounts to more than one thousand (1,000) feet per customer, the applicant shall be required to place on deposit with the Utility an amount equal to the entire cost of the excessive footage over one thousand (1,000) feet per customer based on an estimate prepared by the Utility of the average cost per foot of the total extension. Said estimated cost per foot shall be adjusted to the actual cost per foot, at such time as the extension has been completed.
- (b) The service drop shall not be considered a part of the extension.
- (c) The Utility shall refund to the applicant or applicants who paid for the excessive footage the average cost of one thousand (1,000) feet of the extension for each additional customer connected during the year whose service line is directly connected to the extension installed and not to extensions or laterals therefrom, but in no case shall the total amount refunded exceed the amount on deposit with the Utility. Refunds will be made on an annual basis for ten (10) years or until the applicant or applicants deposit has been refunded, whichever occurs first.

BEREA COLLEGE ELECTRIC  
UTILITY DEPARTMENTRULES AND REGULATIONS.04 Distribution Line Extensions to Mobile Homes.

(a) All extensions of up to 150 feet from the nearest facility shall be made without charge.

(b) Extensions greater than 150 feet from the nearest facility and up to 300 feet shall be made provided the customers shall pay the Utility a "customer advance for construction" of fifty dollars (\$50) in addition to any other charges required by the Utility for all customers. This advance shall be refunded at the end of one (1) year if the service to the mobile home continues for that length of time.

(c) For extensions greater than 300 feet and less than 1,000 feet from the nearest facility, the Utility may charge an advance equal to the reasonable costs incurred by it for that portion of the service beyond 300 feet plus fifty dollars (\$50). Beyond 1,000 feet the extension policies set forth in 807 KAR 5:030E Section 10 apply.

(i) This advance shall be refunded to the customer over a four (4) year period in equal amounts for each year the service is continued.

(ii) If the service is discontinued for a period of sixty (60) days, or should the mobile home be removed and another not take its place within sixty (60) days, or be replaced by a permanent structure, the remainder of the advance shall be forfeited.

(iii) No refunds shall be made to any customer who did not make the advance.

RULES AND REGULATIONS

.05 Governing the Supplying of Electric Service Underground.

1. General: The Company will, upon applicant's request, install facilities to supply electric service underground, provided the requested underground service is, in Company's judgement, practical, feasible, and in accordance with good operating practice. In addition, the applicant must reimburse the Company an amount equal to the difference in cost between the requested underground and equivalent overhead service facilities. The Company will calculate the cost difference for each installation and that amount shall be due and payable before construction is begun. Upon agreement by both parties, if the applicant should choose to perform all necessary trenching and backfilling, per Company's specifications, which includes installation of conduits under streets and passageways as required, the Company shall credit the applicant's cost in an amount equal to the Company's cost for trenching, backfilling and conduit.

The point of delivery to an individual premise or load shall be at a point on such premise as designated by the Company. The applicant/customer will provide, own, operate and maintain all electric facilities on the load side of the point of delivery with the exception of Company's meter for which suitable provisions shall be made by the applicant/customer in accordance with the Company's General Rules.

2. New Residential Subdivisions: Installations and service shall be provided in accordance with the preceding "General" section and 807 KAR 5:041 (Electric), Section 21, except the Company shall calculate the "average cost differential" per foot for each subdivision rather than file an "estimated average cost differential" annually. The individual services in a new subdivision shall be provided in accordance with Paragraph No. 3; Individual Residential Services.

## RULES AND REGULATIONS

### .06 Relocation of Lines.

The Utility will cooperate with all parties in the construction, improvements, or rehabilitation of public streets and highways. It is expected that these parties will give reasonable notice to permit the Utility to relocate its lines to permit the necessary road construction. If the Utility's poles, anchors, or other appurtenances are located within the confines of the public right(s) of way, the Utility shall make the necessary relocation at its own expenses; if the Utility's poles, anchors, or other facilities are located on private property, the parties shall then be required to reimburse the Utility.

When the Utility is requested to relocate its facilities for any reason(s) provided adequate right-of-way can be obtained for the relocation requested, any expense involved will be paid by the firm, person, or persons requesting the relocation, unless one or more of the following conditions are met:

- (a) The relocation is made for the convenience of the Utility.
- (b) The relocation will result in a substantial improvement in the Utility's facilities of their location.
- (c) That the relocation is associated with other regularly scheduled conversion or construction work and can be done at the same time.

INSPECTIONS

.01 Electric Distribution System Inspection.

Berea College Electric Utility Department has adopted the following procedure for the inspection of its electrical system. A systematic inspection shall be performed in the manner set out below.

By agreement with Kentucky Utilities, they will perform all inspections on our system on facilities with a primary operating voltage of 69 KV or greater.

- (a) At Intervals Not to Exceed Six Months. Underground network transformers and network protectors in vaults located in buildings, or under sidewalks, shall be examined for leaks, condition of case, connections, temperature, and overloading.
- (b) At Intervals Not to Exceed Two Years. Electric lines operating voltages less than 69 KV (including insulators, conductor, and supporting facilities).
- (c) Other Facilities.
  - (i) Utility buildings will be inspected for compliance with safety codes at intervals not greater than one year.
  - (ii) Construction equipment will be inspected for defects wear and operational hazards, at intervals not greater than quarterly.
- (d) On the receipt of a report of a potentially hazardous condition made by a qualified employee or public official or by a customer.
- (e) Appropriate records shall be kept to ~~public service commission~~ <sup>public service commission</sup> made, deficiencies found, and action taken for the ~~correction~~ <sup>correction</sup> of such deficiencies.

RESIDENTIAL CLASS I BUDGET PLAN

.01 General

The Utility has a budget plan available for the convenience of its residential customers who have been receiving service for a minimum of twelve (12) months. The plan is designed to help equalize payments for service over a period of months, normally July through June for service rendered June through May. On the last month of the budget payment period (June) appropriate adjustments shall be made relative to any difference in the customer's total payments and actual usage billing amounts. Budget bills are due and payable within a period not exceeding ten (10) days. A ten (10%) percent late payment charge will be added if any bill is not paid by the tenth (10) day after billing date. Failure to receive a bill does not exempt a customer from these rules and regulations.

.02 Review

The customer's account shall be reviewed periodically and the monthly payment amount may be adjusted during the budget period because of changes in usage and/or approved rate changes.

.03 Continuance

It is understood that this budget billing plan will continue until the customer notifies the Utility in person or in writing, or by telephone to discontinue the plan or the customer defaults in payment of such plan.

To be accepted as a budget customer, the account balance must be paid in full before the customer is put on budget billing.

WHOLESALE ELECTRIC ADJUSTMENT CLAUSE ("PASS THRU")

PURSUANT TO 807 KAR 5.011,  
SECTION 9 (1)

.01 Background.

BY: Stephan B. Bell  
SECRETARY OF THE COMMISSION

The rates authorized the utility are based upon the wholesale cost of electricity to the utility as computed upon rates of its wholesale supplier currently in effect under the Federal Energy Regulatory Commission tariffs for interstate business and /or under wholesale tariffs of the Public Service Commission of Kentucky. For the purpose of this Wholesale Electric Adjustment Clause, such rates shall be considered as the BASE RATE for purchased electricity.

.02 Base Rate Increase.

In the event there is a proposed increase in the BASE RATE the utility shall, within sixty (60) days from the time it receives notice of the proposed change, file with the Public Service Commission the following information:

(1) A copy of the tariff filed by the wholesale supplier to be approved by the Federal Energy Regulatory Commission or wholesale tariff of this Commission affecting the change in the base rate and a statement relative to the effective date of such proposed change.

(2) A statement setting out the details of electricity purchased under the provisions of the base rate for the previous twelve (12) months showing billing under the base rate and under the proposed revised rate applicable to this service. (Exhibit A)

(3) The balance sheet as of the end of the latest twelve (12) month period and a statement of operating expenses and revenues in the same detail as reported to the Public Service Commission in the utility's annual report.

(4) Such other information as this Commission may request for a proper determination of the dollar amount of the wholesale electric adjustment.

Upon receipt of this information, the Commission shall review the effect of the revised rate on the operations of the utility and will, prior to the effective date of the revised RATE BASE, issue its order setting out the wholesale electric adjustment that the utility shall apply to its rates.

JUN 24 1999

#### .03 Base Rate Decrease.

In the event there is a decrease in the wholesale electric costs, the utility shall file the information required in subparagraphs 1, 2 and 4 above.

PURSUANT TO 807 KAR 5.011,  
SECTION 9(1),  
BY: Stephen O. Bell  
SECRETARY OF THE COMMISSION

Upon receipt of this information, the Commission shall review the proposed reductions and, within thirty (30) days from the date of the receipt of the information required, issue its order setting out the proper revised rates.

#### .04 Permitted Adjustment.

The maximum amount of the adjustment so prescribed shall not produce revenue adjustments based upon the actual preceding twelve (12) month period greater than the difference between the wholesale electric expense billed at the then existing BASE RATES and the wholesale electric expense billed at the proposed or revised rates.

### RULES AND REGULATIONS

The charges as set forth in these rate schedules are predicated on the rates of the company's wholesale electric supplier as authorized by the Federal Energy Regulatory Commission, which shall be the "Base Supplier rate or existing Base Rate".

#### .05 Formula Equation.

On and after the effective date of this rate schedule, if any increase or decrease is made in the rate at which wholesale electric suppliers sell electricity to the utility, the charges of the aforesaid rate schedule shall be increased or decreased by a "Wholesale Electric Adjustment" determined as follows:

- (a) Electric purchases by the Utility shall be formulated on a monthly basis on the schedule attached hereto as Article V, Exhibit A.
- (b) Rate increases /decreases shall be passed on to the Utility's customers in accordance with the allocation by customer class approved by this commission in the last general rate case attached here as Article V, Exhibit B.
- (c) The Utility's retail rate increase /decrease by customer class shall be formulated on the schedule attached hereto as Article V, Exhibit C.
- (d) A twelve-month customer bill analysis shall be furnished to the Commission illustrating the effect of the adjusted rates. Attached hereto as Article V exhibit D.
- (e) The new supplier wholesale rate shall become the supplier BASE RATE to be used in measuring the effect of any subsequent supplier rate change. Each such subsequent change shall be treated in the same manner as set forth above for the establishment of a new Wholesale Electric Adjustment and for the establishment of a new BASE RATE .

### RULES AND REGULATIONS

- (f) The Commission, based on changes in circumstances may require that any rate increases or decreased be passed on to the Utility's customers based on a revenue allocation other than that approved in the Utility's last general rate case.

.06 Wholesale Electric Refunds: In the event the Utility receives from any wholesale electric supplier a refund of amounts paid to such supplier in respect of a prior period, the Company will apply to the Commission for authority and upon receipt thereof make adjustments on the amounts charged to its customers under this provision, as follows:

- (a) The "Refundable Amount" shall be the amount received by the Utility as a refund less the costs of recovery. Such refundable amount shall be divided by the number of KWH's or other unit of measure of electricity that the Company estimates it will sell to its customers during the four (4) month period commencing with the first day of the month following receipt of the refund. This figure shall be the "Refund Factor".
- (b) Effective with the meter readings taken on and after the first day of the second month following receipt of the refund, the utility will reduce by the Refund Factor so determined any wholesale electric adjustment that would otherwise be applicable during such period. Provided, however, that the period of reduced wholesale electric adjustment will be adjusted, if necessary, in order to refund as nearly as possible the Total Refundable Amount.
- (c) The utility may apply to the Public Service Commission for the right to depart from the refund procedures herein set forth.
- (d) The Commission, based on circumstances existing at the time, may require the Utility to deviate from the refund procedures set forth herein.

First SHEET NO. 21

RULES AND REGULATIONS

.07 Wholesale Electric Bill Reductions: In the event the Utility receives from any wholesale electric supplier any permanent or temporary reduction in its wholesale (purchase) power bill due to a credit or other mechanism, other than a decrease in the BASE RATE, the Utility will apply to the Commission for authority and upon receipt thereof make adjustments on the amounts charged to its customers under this provision, as follows:

The wholesale "billing credits" shall be the amount received by the Utility. A Billing Credit rate shall be calculated each month by dividing the monthly wholesale billing credit received by the estimated kWh sales for the next billing cycle. The Billing Credit rate shall be applied to customers' monthly consumption to calculate the proportionate share of the wholesale billing credits. After the monthly bills have been calculated, the total Billing Credits will be compared to the monthly wholesale billing credits. Any amount over or under the monthly wholesale billing credit will be carried forward to adjust the next month's billing credit accordingly.

ARTICLE V

FOSSIL FUEL ADJUSTMENT CLAUSE

In the event the wholesale rate for power purchased by the utility is adjusted in accordance with the fossil fuel adjustment clause provisions in the tariffs of the utility's wholesale electric supplier, the utility's fuel adjustment charge to its customers will be the fuel adjustment clause factor billed to the utility by its wholesale supplier adjusted by the most recent twelve (12) month moving average line loss percentage.

The fuel adjustment clause charged, calculated to the nearest one centh (0.01¢) of a cent will be applied to the KWH sales in the next month.

Service under this schedule will be limited to a 12 month average usage greater than 25,000 KWH per month. New customers that demonstrate an average demand greater than 50 KW will be served under this rate for a 12 month period. ( This tariff applies existing Housing Authority of Berea agreements.)
- (c) Type of Service: Single-phase, 60 cycle, 110/220 volts, or 3-phase, 60 cycles 220 volts, or 3-phase, 60 cycle, alternating current of a nominal voltage of 480, or 3-phase, 60 cycle, alternating current of a nominal voltage of 240/480 volts at the point of delivery.
- (d) Special Contract: Contracts may be made with individual users as to amounts of energy to be furnished and manner in which energy will be measure: contracts may also be made to individual customers relative to a minimum annual bill. Copies of specific contracts made with individual customers will be filed with the Public Service Commission of Kentucky.
- (e) Late Payment Charge: 10% will be added if bill is not paid by the 10th day after billing date.
- (f) Determination of Maximum Load: The load will be measured and will be the average KW demand delivered to the customer during the 15-minute period of maximum use during the month. Berea College Electric Utility reserves the right to place a KVA meter and base the billing demand on the measured KVA. The charge will be computed based on the measured KVA times 90% of the applicable KW charge. In lieu of placing a KVA meter, Berea College Electric Utility may adjust the measured maximum load for billing purposes when power factor is less than 90% in accordance with the following formula: (BASED ON POWER FACTOR MEASURED AT TIME OF MAXIMUM LOAD).

**STREET LIGHTING SERVICE-CLASS 7**

- (a) Applicable: To all customers in the city of Berea and contiguous territory thereto.
- (b) Availability of Service: This rate schedule is available, for the various types of street lighting services shown herein. Service is subject to the provisions herein and the provisions of Berea College Electric Utility's standard contract for street lighting service.
- (c) Conditions of Service:

1. Duration: Service shall be from dusk to dawn, automatically controlled, approximately 4,000 hour per year.
2. Standard Overhead System: Street lighting equipment furnished under the Standard Overhead Rate shall consist of wooden poles, brackets, appropriate fixtures for lamps being used, the necessary overhead street lighting circuit, protective equipment, controls and transformers. Berea College Electric Utility will, install own, operate and maintain the entire street lighting system, including circuits, lighting fixtures and lamp replacement. The Customer shall pay the Standard Overhead Rate.

When the Customer request service under the Standard Overhead System and the Customer desires other than a wooden pole, Berea College Electric Utility may furnish the required pole(s) and, when required by pole type, fixture(s) at an additional charge per month to be determined by Berea College Electric Utility. The additional charges are subject to change by Berea College Electric Utility upon 30 days prior written notice.

3. Standard Overhead System on Existing Poles: Private outdoor lighting equipment furnished under the Standard Overhead on Existing Pole Rate shall consist of bracket(s), appropriate fixture(s) for lamp(s) being used, the necessary overhead lighting circuit, protective equipment, controls and transformers. Berea College Electric Utility will, install own, operate and maintain the entire private outdoor lighting system, including circuits, lighting fixtures and lamp replacement. The Customer shall pay the Standard System on Existing Pole Rate when private outdoor lighting is installed on an existing pole.

4. Other Than Conventional Overhead Systems: Should the Customer require, either initially or upon replacement a system or equipment other than that described in 2 and 3 above for lamp size as provided herein, (this constituting a conventional overhead system) the Customer may make a non refundable contribution to Berea College Electric Utility equal to the difference in the installed cost between the system or equipment so required and the cost of a conventional overhead system as herein defined.

5. Any installation cost which are to be borne by the Customer, in accordance with the foregoing paragraph 4, will be paid prior to installation.

(d) Rates :

Mercury Vapor *	KW Load	Rate Per Light Per Month	
		Standard Overhead	Standard System on Existing Pole
175 watt	.210	\$6.28	\$5.32
400 watt	.455		\$8.62
High Pressure Sodium			
100 watt	.142	\$4.63	\$4.12
250 watt **	.315	\$9.11	\$8.49

Notes:\* Mercury vapor restricted to those fixtures in service on January 1, 1995.

(e) Late Payment Charge: 10% will be added if bill is not paid by the 10th day after billing date.

(f) Determination of Energy Consumption: The applicable fuel clause charge or credit will be based on the kilowatt-hours calculated by multiplying the kilowatt load of each light times the average number of hours the light is in use, each month (4,000 annual hours of operation / 12 months = 333 monthly average). The kilowatt load of each light is shown in the section titled "Rates".

RATES, RULES AND REGULATIONS FOR POLE ATTACHMENTSSECTION 1 - APPLICABILITY AND ENFORCEMENT1.01 - Applicability.

These regulations are filed in compliance with 807 KAR 5, and shall govern and control the use of any pole or facility owned by Berea by any approved Cable Antenna Television Customer ("CATV") who desires to make attachments to the poles of Berea and who adheres to the terms and conditions of these tariffs. Any entitlement acquired by CATV under these regulations shall not be exclusive and may be subordinated to the rights and privileges of Berea or those acquired by other public utilities or other entities making lawful use of Berea's poles and facilities.

1.02 - Definitions.

As used in this contract, and unless otherwise defined, the following definitions shall apply:

(a) "attachments" - Any addition, appendage, fixture or use of any type or nature whatsoever of the poles, anchors, equipment, easements or facilities of Berea College Electric Utility.

(b) "CATV Customer" - Cable Antenna Television Operators meeting all requirements to operate, to include possessing necessary franchises, and the same shall be considered customers of Berea.

(c) "Berea" - Berea College Electric Utility, a Department of Berea College, Berea, Kentucky. PUBLIC SERVICE COMMISSION OF KENTUCKY

(d) All those terms specifically defined in 807 KAR 5, when used in these rules and regulations, shall have the same definition as in those regulations. EFFECTIVE JULY 14, 1983

RATES, RULES AND REGULATIONS FOR POLE ATTACHMENTSSection 1.03 - Commission's Rules and Regulations.

All attachments and uses shall be in accordance with the Public Service Commission law and the acts, orders, rules, regulations and forms which have or may be adopted by the Public Service Commission, and all amendments thereto and modifications thereof which may be made by the Commission.

Section 1.04 - Berea's Rules and Regulations.

In addition to the rules and regulations prescribed by the Commission, all attachments shall also be in accordance with the rules and regulations adopted by Berea, provided that the same do not conflict with those of the Public Service Commission.

Section 1.05 - Enforcement and Severability.

The Utility Administrator of Berea, or his designated representative, shall administer and enforce these regulations. If any provision of these regulations or the application is held invalid, the remainder of these regulations or the application of such shall not be effective.

SECTION 2 - GENERALSection 2.01 - Hold Harmless and Indemnification.

CATV shall protect, indemnify and hold harmless Berea, its officers, agents, employees, representatives and contractors against and from all loss, claims, actions or suits, including costs and attorneys fees, for or on account of any injury or death of persons or damage to property caused by CATV or CATV's employees, agents, representatives and contractors in tampering with, repairing, maintaining or operating the system of CATV or any pole or facility owned by Berea except where such

injury, death or damage was caused or contributed to by the fault of Berea, its employees, agents, representatives or contractors. The obligation to indemnify and hold harmless shall survive the termination of use by a CATV customer with respect to any act, occurrence or omission occurring prior to termination, whether or not then known or accrued. CATV agrees to purchase and maintain at its sole cost and expense insurance payable to Berea, as it's interest may appear, applying all work and activities undertaken by CATV, its agents, employees, or subcontractors, to indemnify and hold harmless Berea from any and all injury and damages, such insurance policy to be not less than One Million Dollars (\$1,000,000.00) comprehensive coverage for any single occurence.

Without regard to any negligence by any of the parties, to this agreement, Berea shall not be liable to CATV for any loss or damage to CATV's system or other property or any injury to CATV or CATV's employees, agents, contractors, representatives, consumers, licensees or invitees, including, without limitation, damage or injury caused by closing of the transmission or distribution system. Further, without regard to any negligence by any of the parties to this agreement, Berea shall not be liable to CATV for any loss of profits, revenues or any other indirect or consequential damage or injury to CATV resulting from interruption or partial interruption in the delivery of service from CATV.

Section 2.02 - Bond.

CATV is to furnish to Berea a bond in the penal sum of Twenty-Five Thousand Dollars (\$25,000.00) to guarantee faithful performance by CATV of all the terms and conditions of these Rules and Regulations to include payment of charges, said bond to be executed by CATV and such surety or sureties as may be approved by Berea.

RATES, RULES AND REGULATIONS FOR POLE ATTACHMENTS

Upon request and review, Berea shall give consideration to reduction of the bond as may be warranted by the proven reliability of the customer.

Section 2.03 - Taxes.

If there shall be imposed by federal, state, other governmental authority or school system any tax, fee or assessment payable by CATV upon the gross revenue or earnings, or upon CATV's franchise or business activities, such additional tax, fee or assessment shall be paid solely by CATV.

Section 2.04 - Force Majeure.

To the extent the electric distribution system and operations of Berea is affected, interrupted or prevented by labor disputes, governmental interferences or control, riot, civil disobedience, weather, fire, other casualties or acts of God beyond the control of Berea, the obligations of Berea under these tariffs shall be suspended until the removal of such interference or obstacle.

SECTION 3 - RATES AND PAYMENTSection 3.01 - Rates.

The charges and rates for each attachment to Berea's poles shall be those as reflected in the rates attached hereto. Composite billing rate based on relative pole population is permitted when a complete updated inventory of CATV attachment is not available. Any substandard unauthorized or unreported attachment by CATV will be billed at a rate <sup>PUBLIC SERVICE COMMISSION</sup> <sup>OF KENTUCKY</sup> <sup>EFFECTIVE</sup> <sup>JUL 14 1983</sup> two times the amount equal to the rate that would have been due had the installation been made the day after the last previously required inspection pursuant to 807 KAR 5:006, §22.

Section 3.02 - Payment of Charges.

Charges applicable to attachments shall be billed monthly based on the number of pole attachments, and shall be paid within ten (10) days of billing. A 10% late payment charge will be added if bills are not paid by the 10th day after billing.

SECTION 4 - USE AND STANDARDS

Section 4.01 - Pole Availability.

CATV shall be authorized to attach to the poles of Berea where space is or can be made readily available, but Berea shall be under no obligation to grant use for attachment to any pole which is not reasonably available for that purpose.

Section 4.02 - Standards of Attachments.

(a) CATV shall have the sole responsibility for the design, construction, installation, ownership, safety, operation and maintenance of the attachments. In designing, constructing, installing, operating and maintaining the attachments, CATV shall comply with all the rules, regulations, policies, standards and codes generally recognized in the utility industry as applicable to such operations, including, but not limited to, the National Electric Safety Code, regulations of Berea and the Public Service Commission of the Commonwealth of Kentucky, all federal, state and local safety codes, statutes, regulations and ordinances now in existence or that may be adopted from time to time.

RATES, RULES AND REGULATIONS FOR POLE ATTACHMENTS

(b) At a minimum, the CATV customer shall not make an attachment lower than 20 feet clearance to the ground on any pole or facility of Berea.

Section 4.03 - Notice of Use.

(a) Before CATV shall make use of any pole or facility of Berea, they shall notify Berea of its intention in writing and shall comply with the procedures established by Berea and the Public Service Commission. As a minimum, CATV will submit an Application for Permit on a form furnished by Berea. CATV shall furnish to Berea construction plans and drawings for each pole line, together with necessary maps, indicating specifically the poles of Berea, the number and character of attachments to be placed on such poles, and rearrangements of Berea's fixtures and other equipment necessary for the attachment, relocation or replacement of existing poles, and any additional poles that CATV intends to install.

(b) Berea shall, on the basis of such detailed construction plans and drawings, submit to CATV a cost estimate (including overhead, less salvage value of materials) of all changes that may be required on each such pole. Upon written notice by CATV to Berea, that the cost estimate is approved, Berea shall proceed with the necessary changes covered by the cost estimate. After all such necessary changes are performed, CATV shall have the right to make attachments in accordance with the terms of the application of this Contract. CATV shall, at its sole expense, make attachments in such a manner so as not to interfere with the service rendered by Berea.

(c) Upon completion of all changes, modifications, relocations or replacements as may be necessary, CATV shall forthwith pay to Berea the actual cost of making such changes, modifications, etc. The obligation of CATV hereunder shall not be limited to the amount shown on the estimates above mentioned. An itemized statement of the actual cost of such

changes shall be submitted by Berea to CATV, in a form mutually agreed upon.

(d) Any charges necessary for correction of sub-standard installation made by CATV, shall be billed at a rate equal to twice the charge that would have been imposed if the attachment had been properly authorized.

Section 4.04 - Ownership of Poles.

All poles to which attachments have been made under this tariff shall remain the property of Berea, and any payments made by CATV for changes in pole lines shall not entitle CATV to the ownership of any poles.

Section 4.05 - Easements and Rights-of-Way.

(a) Berea does not warrant nor assure CATV any right-of-way privilege or easement. If CATV shall at any time be prevented from placing or maintaining its attachment on Berea's poles or any appurtenances thereto, no liability on account thereof shall attach to Berea. Each party shall be responsible for obtaining its own easements and rights-of-way.

(b) Any reclearing of existing rights-of-way and any tree trimming necessary for the establishment of pole line attachments shall be performed by and at the cost of CATV.

Section 4.06 - Maintenance and Relocation of Poles and Attachments; Operations.

(a) Whenever right-of-way considerations or public regulations require relocation of a pole or pole facilities, such relocation shall be made by Berea at its sole expense; except that, however, each party shall bear the cost of transferring its own attachments.

RATES, RULES AND REGULATIONS FOR POLE ATTACHMENTS

(b) When it becomes necessary to replace or relocate an attachment, Berea shall, except in the case of emergencies, give forty-eight (48) hours notice to CATV before the required time for such replacement or relocation. CATV shall, at the time so specified, transfer its attachments to the new or relocated pole or facility. Should CATV fail to transfer its attachments to the new or relocated pole at the time specified in such notice, Berea may elect, but is not required to perform such work, and CATV shall pay Berea the cost thereof. In the event CATV fails to transfer its attachments and Berea does such work, Berea shall not be liable for any loss or damage to CATV's facilities and attachments, nor shall Berea be obligated or liable for any disruption or termination of service to CATV's customers, except as for that which was caused by the negligence of Berea College in performing such work.

Section 4.07 - Existing Attachments.

Any attachments of CATV which may exist or may be hereafter installed which do not conform with the specifications as required these rules and regulations of Berea, the Public Service Commission or any other agency, shall be brought in conformity therewith as soon as practical. Berea, because of the importance of its service, reserves the right to inspect all existing and new installations of CATV either on the poles of Berea or in the vicinity of its lines and appurtenances.

Section 4.08 - Inspection.

(a) Cost of any "make ready" inspection or "walk through" inspection required shall be borne by Berea unless it is shown that substandard installations ~~created by the Utility but by the CATV operator~~ <sup>PUBLIC SERVICE COMMISSION OF KENTUCKY</sup> which event Berea shall charge the CATV operator the cost <sup>EFFECTIVE</sup> of correcting, plus contributions towards administrative costs, labor and material costs incurred.

(b) Inspection and/or acceptance of any plan, design, specification or operating characteristic observed or provided shall not be construed as confirming or endorsing the design or as warranting the safety, durability and/or reliability thereof. Berea shall not, by reason of any review, acceptance, inspection or failure to review or inspect, be responsible to CATV or its consumers, nor shall any acceptance or approval be construed as an endorsement of any attachment of CATV.

Section 4.09 - Abandonment of Pole or Facility Use.

(a) If at any time, Berea abandons or terminates use of any pole or facility to which CATV has an attachment, it shall give CATV notice in writing to that effect at least thirty days (30) prior to the date on which it intends to abandon such use. At the expiration of said period, if Berea shall have no attachment or other use of the pole, but CATV shall not have removed its attachments therefrom, such pole shall thereupon become the sole property of CATV, and CATV shall save harmless Berea from all obligation, liability, damages, costs, expenses or charges incurred thereafter; and shall pay Berea for such pole at an amount equal to Berea's replacement cost less depreciation thereof. Berea shall further evidence transfer to CATV of title to the pole by means of a bill of sale.

(b) CATV may at any time abandon use of any attached pole by giving due notice thereof in writing to Berea in a mutually agreeable form, and by removing any and all attachments it may have upon the pole. CATV shall in such case pay to Berea the full rental for said pole for the then current year.

COGENERATION

SECTION 1

GENERAL PROVISIONS

Section 1.01 - Applicability

These regulations are filed in compliance with 807 KAR 5:054, and shall govern and control the purchase of electric power and energy from qualifying facilities.

Section 1.02 - Definitions.

As used in these regulations, and unless otherwise defined, the following definitions shall apply.

- (a) "qualifying facility" or "Q.F." - is defined to include all of Producer's electric generation facilities and all interconnection and safety equipment owned by Producer and used in connection with the electric generation facilities owned by Producer which will produce electric power and energy for sale under this agreement.
- (b) "point of delivery and purchase" - is defined to be the point at which electric power and energy enters Berea Substation 1 or 2, or such other reasonable place as Berea may designate.
- (c) All those terms specifically defined in 807 KAR 5:054 and 18 C.F.R., part 292, when used in these regulations, shall have the same definitions as in the contract.

SECTION 2

CONDITIONS OF PURCHASE

Section 2.01 - Purchases.

Subject and Pursuant to the regulations of the Federal Energy Regulatory Commission and the Public Service Commission, which are incorporated herein by reference, Berea shall purchase energy or capacity or both from qualifying facilities within its service area, who contract with Berea pursuant to the terms and conditions of the Standard Contract attached hereto.

Section 2.02 - Required Notice and Compliance.

Not less than 60 days prior to the proposed required purchases from any qualifying facility, such qualifying facility shall contact Berea advising as to:

(a) their criteria for qualification as a small power production facility and/or cogenerating facility as adopted by the Federal Energy Regulatory Commission, including title 18 CFR, parts 292.203, et seq., as published in the Federal Register on March 20, 1980, and further as adopted by the Public Service Commission in 807 KAR 5:054, Section 4, et seq;

(b) their compliance with the rules and regulations of Berea as concerns small power production and cogeneration facilities;

(c) their acceptance and execution of a Standard Form Contract in the form and nature of that contract attached to these regulations as Exhibit A; and *Jordan C. Hill*

(d) the amount of energy or capacity or both to be delivered and sold to Berea, the nature, duration and time of such deliveries all to the end that such electric power and

energy or capacity can be usefully integrated into Berea's system.

Section 2.03 - Exclusive Right to Purchase.

The qualifying facility shall not sell any generated energy or capacity or either to any other customer, company or person without the prior expressed written consent of Berea.

Section 2.04 - Billing Period.

Berea shall read the meters not less frequent than monthly. Electric power and energy furnished under this contract shall be paid for within thirty (30) days after the meters are read and bills are issued.

Section 2.05 - Rates.

Berea shall pay for the power and energy purchased from Producer upon the terms and conditions contained in the Standard Form Contract and Berea's tariff schedule for small power/cogeneration ("SPC"), which is attached hereto and incorporated herein by reference, subject to any revision in such rate schedule that may from time to time be approved by the Kentucky Public Service Commission.

Section 2.06 - Terminations.

(a) Berea may discontinue purchases from Producer, without prior notice, during any system emergency, and/or at any time the energy from the Q.F. is affecting the stability of Berea's system voltage.

(b) By prior notice, Berea may break the interconnection between the Q.F. and the system of Berea for a

reasonable period of time for the purpose of necessary inspections, modifications, repairs or other maintenance of the system, the interconnection facility or metering equipment.

(c) Berea reserves the right to terminate purchases when such purchases will result in a substantial cost increase greater than would occur if purchased from Berea's wholesale supplier.†

Section 2.07 - Hold Harmless and Indemnification.

Producer shall protect, indemnify and hold harmless Berea, its officers, agents, employees, representatives and contractors against and from all loss, claims, actions or suits, including costs and attorneys fees, for or on account of any injury or death of persons or damage to property caused by Producer or Producer's employees, agents, representatives and contractors in tampering with, repairing, maintaining or operating the O.F. or any facility owned by Berea except where such injury, death or damage was caused or contributed to by the fault of Berea, its employees, agents, representatives or contractors. The obligation to indemnify and hold harmless shall survive the termination of any agreement with respect to any act, occurrence or omission occurring prior to termination, whether or not then known or accrued.

Without regard to any negligence by any of the parties, to this agreement, Berea shall not be liable to Producer for any loss or damage to Producer's electric system or other property or any injury to Producer or Producer's employees, agents, contractors, representatives, licensees or invitees, including, without limitation, damage or injury caused by reclosing of the transmission or distribution system. Further, without regard to any negligence by any of the parties, Berea shall not be liable to Producer for any loss of profits,

revenues or any other indirect or consequential damage or injury to Producer resulting from interruption or partial interruption in the delivery of energy from Producer.

#### Section 2.08 - Taxes.

If there shall be imposed by federal, state, governmental authority or school system, any tax payable by Producer upon the gross revenue or earnings, or upon Producer's production or sale of electric energy, such additional tax or taxes shall be paid solely by Producer.

#### Section 2.09 - Nature of Energy.

Electric power and energy purchased shall be alternating current, single- or three-phase 60 hertz. The parties will agree upon the deliverage voltage in capacity prior to the commencement of any interconnection and purchase. The Q.F. shall at all times operate in such manner as to maintain a power factor of not less than 90%.

#### Section 2.10 - Power of Delivery.

Berea shall take and purchase all of the power and electric energy produced by a qualifying facility that is delivered to Berea at the point of delivery and purchase. The power and energy delivered by Producer and purchased by Berea shall be metered, computed and paid for in accordance with the terms of the contract negotiated between Berea and the qualifying facility. The qualifying facility shall, as a minimum, be responsible for computed line loss from the point of interconnection to the point of delivery and purchase.

SECTION 3

DESIGN, OWNERSHIP AND MAINTENANCE OF FACILITIES

Section 3.01 - Ownership, Design and Maintenance.

Producer shall have the sole responsibility for the design, construction, installation, ownership, safety, operation and maintenance of the Q.F. In designing, constructing, installing, operating and maintaining the Q.F., Producer shall comply with all the rules, regulations, policies, standards and codes generally recognized in the utility industry as applicable to such operations, including, but not limited to, the National Electric Safety Code, regulations of the Public Service Commission of the Commonwealth of Kentucky, all federal, state and local safety codes, statutes, regulations and ordinances now in existence or that may be adopted from time to time.

Section 3.02 - Interconnection Costs.

Producer shall pay Berea the "additional interconnection cost" as defined in 807 KAR 5:054, Subsection 6(6), as might be incurred by the Q.F. interconnecting with the distribution system of Berea.

Section 3.03 - Metering Equipment.

Producer shall pay for and Berea shall own and maintain the metering equipment Berea determines is necessary based upon the size and other characteristics of the Q.F. to measure the power and energy sold by Producer to Berea. All metering equipment shall accurately determine KWH hours supplied to the point of delivery and purchase as herein defined. Upon termination of any agreement, the meters and metering equipment will be returned to Producer, if requested, on an "as is, where is" basis. Cost of testing and bill adjustment shall be in compliance with 807 KAR 5:006, Subsection 9.

Section 3.04 - Prior Approval of Design Plans.

The original and any revision to the plans, specifications and operating characteristics for the Q.F. must be approved by Berea before Producer connects or continues its connection to Berea's system. Prior to energization of the interconnection between the Q.F. and Berea, Berea shall have the right to inspect the Q.F. for any purpose. Inspection and acceptance of any plan, design theory, specification or operating characteristic observed or provided shall not be construed as confirming or endorsing the design, or as warranting the safety, durability and/or reliability of the Q.F. Berea shall not, by reason of any review, acceptance, inspection or failure to review or inspect, be responsible to the Q.F., including, but not limited to, the strength, safety, details of design, adequacy, capacity, nor shall acceptance or approval be construed as an endorsement of any Q.F.

Section 3.05 - Interconnection Easements.

Producer shall be solely responsible for the furnishing and paying for any and all rights-of-way and easements necessary to install, operate, maintain, replace and remove the interconnection facility and the metering equipment. Duly authorized representatives of Berea shall be permitted to enter the premises of Producer at all reasonable times as may be necessary in connection with the proper performance of the terms and conditions of this agreement. Producer shall install, own and maintain the necessary substation equipment at the point of interconnection to the system of Berea.

Section 3.06 - Protection of System.

Producer shall be responsible for operating and maintaining the Q.F. in a safe manner, and for providing the

protective equipment needed to prevent damage to the system owned by Berea, injury to the personnel of Berea, or interference with Berea's consumers. Berea shall reserve the right to review Producer's proposed protective system, operating procedures and system characteristics in order to determine whether the operation of the Q.F. will have an impact on the system owned by Berea. The following areas shall be included in the review for possible defects: fault protection; voltage regulation and balance; grounding; synchronizing systems; disconnect and isolation systems; flicker; and harmonics.

If the operation of the Q.F. results in undesirable or harmful effects to the system of Berea, or to Berea's consumers, then in such event, Berea may require Producer to discontinue parallel operations until the circumstances have been corrected by installing appropriate equipment or otherwise.
